Claim Remarks

Estimate at 110% of ACV

07/24/2013 Inspected insured's 2004 MB CL600 at customer's residence at approximately 10:40 am, met with Jimmy, noted damage to rear, left rear of customer's vehicle, approximate repair time is 18 days.

This was a moderate to hard impact to the rear, left rear of customer's vehicle with no airbag deployment.

Wrote estimate with OEM parts and average labor rates for shops in area as well as all detrim, pull etc., as

vehicle has extensive damage and does not appear that it should be repaired.

There are open items include detrim for jiggling, as well as additional internal damage once vehicle has been torn down.

I do not recommend repair of this vehicle.

No tow bill, not storage as vehicle is located at customer's residence.
